

November 30nd, 2023

**The third round notice of the 2023 Sino
Asia–Pacific Association of Medicine and
Bio–Immunology(APAMBI)
China–Europe–US–Japan Advanced Meeting**

All relevant units and individuals:

To promote academic exchange in the field of Allergy, Immunology, and Rheumatology, both domestically and internationally, improve diagnostic and management approaches of related diseases, enhanced the understanding in diverse patient groups, and share advancements in the field, the Guangdong Precision Medicine Application Association (GDPMAA) will host the 2023 Sino Asia-Pacific Association of Medicine and Bio-Immunology(APAMBI) China-Europe-US-Japan Advanced Meeting on December 2nd, 2023 in both the online and physical attendance formats. This conference aims to provide a platform for international discussions on the scientific progress and advancements in Allergy, Immunology, and Rheumatology. We cordially invite all

professionals from private enterprises and academic institutions in this field to actively participate in this conference, sharing their academic experience and the latest technology, thereby promote fruitful exchanges between the industry, scientists, and healthcare providers.

The relevant matters are hereby notified as follows:

I. Organizational structure

(i) Organizational units

Sponsor: Guangdong Precision Medicine Application Association (GDPMAA)
